

# *Planning and Development Department*

## Department Overview

The Planning and Development Department plans and manages growth and development in Nags Head through sound urban planning and development practices. The Department is responsible for zoning administration, code compliance, building inspections, and planning.

Department staff maintains the Town's growth plan; updates development ordinances, policies and procedures; reviews zoning submittals; provides reports on development activity, and demographic data; and maintains GIS and permitting databases. Staff is also responsible for reviewing site plans and subdivision plans, carrying out site reviews; processing zonings, site plans, and subdivision plans; enforcing zoning codes; and reviewing minor CAMA permit applications.

The Building Inspections staff is authorized under the State of North Carolina General Statutes to perform inspection services within Nags Head's territorial jurisdiction. The duties and responsibilities of the Building Inspectors include enforcement of these guidelines relating to the construction, renovation, or alteration of buildings and other structures; the installation of such facilities as plumbing systems, electrical systems, heating systems, and air conditioning systems; the maintenance of buildings and other structures in a safe, sanitary, and healthful condition; and other matters that the Town Manager may specify.

**Goals**

To effectively manage and plan for the safe and orderly development of the Town while protecting the natural environment and conserving limited resources. This goal is to be achieved in a manner that continually seeks to improve customer service and the performance and delivery of departmental services and products.

**Objectives**

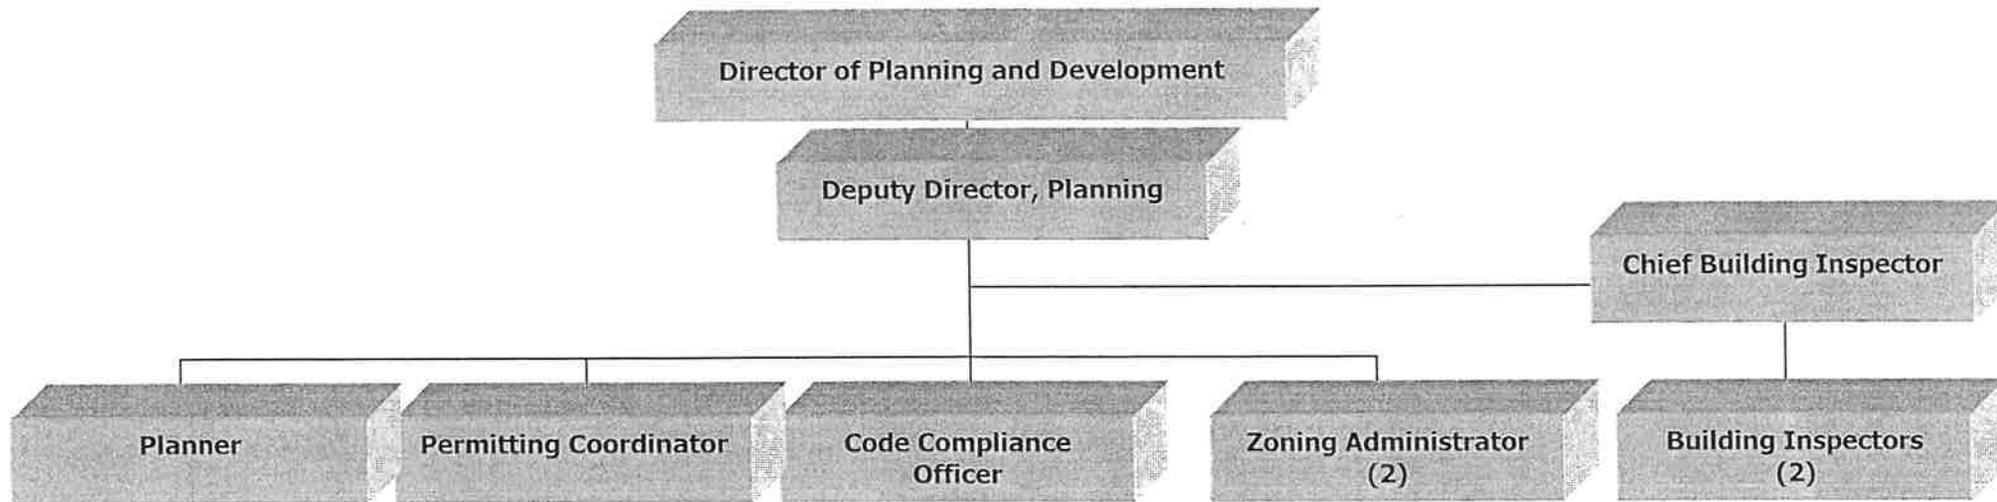

- Conduct the review and update of the Town of Nags Head Land and Water Use Plan.
- Maintain the highest level of expertise, professionalism, and timeliness in the conduct of building inspection services through ongoing training and technologies.
- Continue to examine various means of preserving and promoting existing and new hotel development and redevelopment.
- Continue to refine and improve the Department’s storm preparedness and response capabilities, including the use of geographic information systems (GIS) technologies in damage assessment activities and the expedient and reliable reporting of this information to the general public.
- Continue to enhance our Internet capabilities for information dissemination and customer service.

**Performance Objectives and Workload Indicators**

	<u>FY 03-04</u> <u>Actual</u>	<u>FY 04-05</u> <u>Actual</u>	<u>FY 05-06</u> <u>Actual</u>
