**6. Project Justification**

In 2009, the Town purchased our current 800 MHz radio system for the Police and Fire Departments. These radios, essential tools, allow our first responders to be dispatched to incidents and provide them with a means of communicating with each other at those incidents. In FY 2021 these radios will be 12 years old and will be at their "end of life". Every year, maintenance/repair of these radios is costly and, as they age, each department will incur additional costs to their maintenance/repair of equipment budgets. To be fiscally responsible, both Police and Fire are seeking to begin the replacement of their radio systems over a three year period beginning in FY 20/21. This cost includes the purchase of 29 handheld (portable) units at \$3,478 each and 23 in-car units at \$3,700 each.
